

Bring your team's work together

Evernote Business is cloud-based office productivity software that helps you capture and prioritise ideas, projects, and to-do lists, so nothing falls through the cracks. It's the place where effective teams come together to create, share, and move work forward.

KEY FEATURES

Document scanning and web clipper

Scan important papers, such as documents, receipts, and business cards. You can also clip full pages, images, and text from the web.

Securely organise and find content

Organise information by date, title, or tag. Notes are automatically synced for access across devices. You can also annotate PDFs and images, and search handwriting to find text in any note.

Spaces and templates

Create a project space to get more done with your team. Customise easy-to-install templates for notes to fit every need.

Large data allowances and app integrations

Each user gets 20 GB + 2 GB. Notes can go up to 200 MB. Get an unlimited number of devices, workspaces, and integrations. Connect your favorite apps, and forward emails to your Evernote account.

KEY BENEFITS

Centralise your workspace

Share notes, documents, and other content with anyone in the organisation.
Manage organisational data securely through centralised administrative controls.

Integrate across business applications

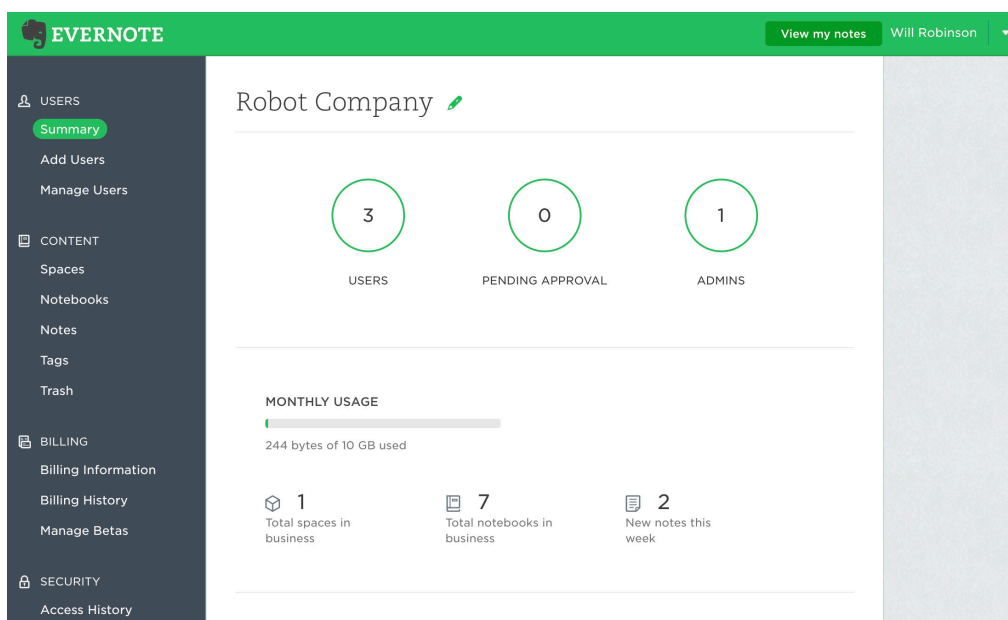

Streamline work with Microsoft Office (Outlook and Teams), G Suite, Slack, LinkedIn, and Salesforce integrations.

Work across device types and offline

Access, edit, upload, and share notes and files from any device—even offline.

Access information wherever it sits

Search docs, spreadsheets, links, images, audio, and handwritten notes.
