

Make impactful PowerPoints in minutes

Pickit Business is the fastest way to make professional-looking presentations that make an impact. The add-in works seamlessly with PowerPoint, Word, Google Slides, Google Docs, Google Sheets, and on the web, so whether your goal is to inspire, inform, or persuade, Pickit makes it easy to create stunning documents in seconds using suggested layouts and design ideas. The service puts all the images you need in one place. Not only do you get easy access to your company's visuals, but you also get unlimited access to the Pickit image library, full of photos, icons, and clipart images.

KEY FEATURES

Legally Cleared™

All of Pickit's images are 100% legal and 100% cleared, which mean they're licensed, GDPR-compliant and free to use for anything.

Image bank

Pickit Business lets you expand your image library and store content from multiple sources, with unlimited storage.

Works right in your programs

Access company images right inside your document inside PowerPoint, Word, Google Slides, Google Docs, Google Sheets, and on the web. Insert any photo, icon, or illustration in the right size with just a click.

Presentation help

Get presentation tips, slide designs, and layout suggestions.

KEY BENEFITS

Compliance

Companies can rest assured they're working with legal, compliant images that won't violate copyrights.

Productivity

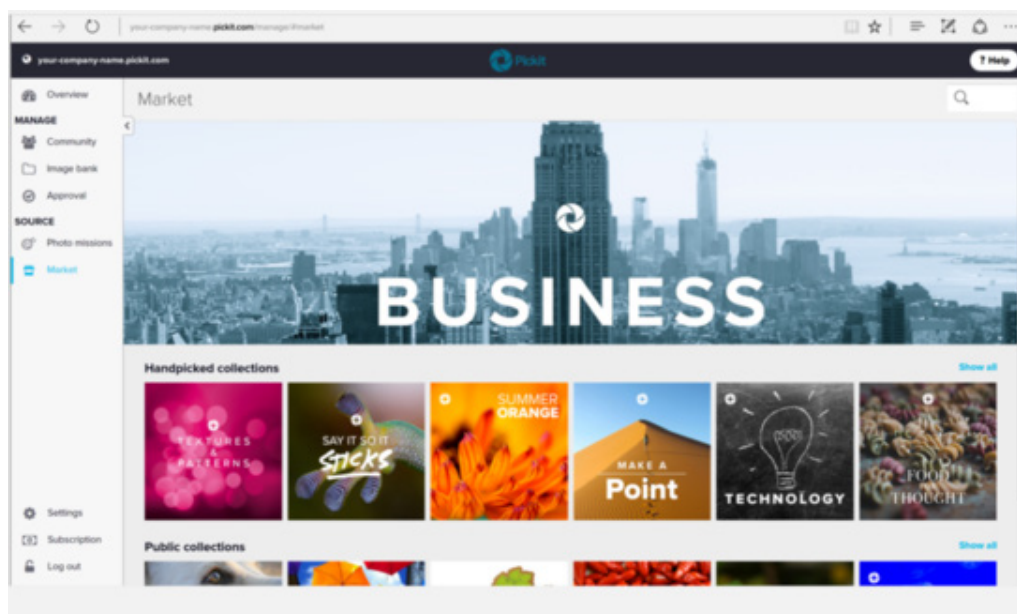

Employees can find images faster in one place—or right inside the application they're using—saving time and boosting productivity.

Get value for money

Increase your return on investment by increasing image bank usage.

Brand control

You can customize your service with company-approved brand assets.
